17. Any person to whom the Board refuses to issue a licence under paragraph (c) of section 10 or whose licence is cancelled or suspended by the Board, and any person who is aggrieved by the imposition of any condition in his licence or who is aggrieved by any other matter in respect of which a right of appeal is conferred by regulations made under this Act may, within thirty days, or such longer time as the Minister may for good cause allow, after such refusal, cancellation, suspension or

- (d) in the case of an applicant who intends to supply bananas other than bananas grown by himself, his family or employees, the names of all persons or groups of persons whose bananas are to be supplied by the applicant to the Board.

(2) The Board may require any person to produce to the Board any contract or agreement, or any document or paper relating to the supply of bananas to an applicant for a supplier's licence or to a licensed supplier, and the Board may require that a copy of such contract, agreement, document or paper shall be deposited with the Board, and may regard the terms and conditions of such contract, agreement, document or paper as part of the conditions of a licensed supplier's licence.

(3) A fee of two dollars shall be paid by a licensed supplier to the Board upon the grant of a licence to him and subsequently on the first day of July of each year during the currency of such licence.

(4) As soon as practicable after applications for licences have been received, the Board shall scrutinize such applications and determine a list of those which may be provisionally approved. This list shall then be published in a newspaper in general circulation in Fiji. Any person who has any objection to the grant of a licence to any person or persons so named in the provisionally approved list shall state such objection in writing to the Chairman of the Board within 14 days of the publication of the provisionally approved list and such objection shall be considered by the Board before final consideration is given to the grant of a licence to any person or persons to whom objection shall have been so made.

(5) (a) Not less than 14 days after publication of the list of provisionally approved licences and as soon as is practicable, the Board shall meet and determine the persons to whom licences shall be granted;

(b) no licensed supplier shall be required to commence supplying bananas to the Board until at least 30 days have elapsed from his receipt of a licence;

*Duration of licences*

4. Suppliers' licences may be granted by the Board for a period not exceeding three years.

*Refusal of licences*

5. The Board shall not refuse to grant a supplier's licence to any person except on the following grounds:—

(a) where in any respect the information provided by an applicant under regulation 3 is, in the opinion of the Board, substantially incomplete or inadequate;

(b) where the applicant is unable to produce satisfactory evidence of the reasonable likelihood of his being able to supply a minimum of 200 cases of bananas per calendar month;

*(Amended by Regulations 14th March, 1963.)*

(c) where any person or group of persons has contracted with a licensed supplier to sell bananas to such licensed supplier and the grant of a licence to another person may, in the opinion of the Board, result in a breach of such contract between such person or group of persons and such licensed supplier;

(d) where at any time the applicant has during the period of three years prior to the application being the holder of a supplier's licence which has been cancelled or suspended.

*Bank account*

6. All licensed suppliers shall maintain and operate an account with a trading or savings bank in Suva or in any place approved by the Board.

*Purchase of bananas*

7. The Board shall not be required to purchase any bananas submitted to it by any licensed supplier unless such bananas are supplied in the quantities, at the times, and in all respects in accordance with the lawful directions issued by the Produce Inspector with respect to such bananas and unless and until they have been passed by the Produce Inspector as having attained the quality standards prescribed and are packed in cases which in all respects conform to the standards prescribed.

*Standards of quality of bananas and cases*

- 8.—(1) (a) Cases shall be constructed of sound, clean, seasoned and dry timber of the following dimensions—ends and centre partitions 11½ inches by 11½ inches by ¾-inch; nine battens each 26 inches by 3 inches by ¾-inch; three lidding battens each 26½ inches by 3 inches by ¾-inch or two lidding battens each 26½ inches by 4½ inches by ¾-inch. Cases shall be tidily constructed with evenly spaced battens without protruding ends and without nails protruding; (*Amended by Regulations 14th March, 1963.*)
- (b) the ends of cases shall be constructed of white timber. The centre partition and all battens may be of white or light coloured timber;
- (c) all timber of which cases are constructed shall be reasonably smoothly finished on all external surfaces and dressed or planed on surfaces in contact with bananas;
- (d) nails shall be flat-headed 13 gauge and not less than 1½ inches in length. Side battens shall be nailed to ends and to the centre partition by two nails at each point. Bottom battens shall be nailed to ends only with two nails at each point. Lidding battens shall be nailed to ends only;
- (e) all cases shall be bound at each end with wire.
- (2) Only bananas of the varieties Veimama, Gros Michel or Cavendish of the species *Musa acuminata* shall be accepted.
- (3) Bananas shall be packed firmly in single fingers with the stalk end outwards so as to contain not less than 72 lb. nett weight of bananas in each case; the bananas shall be so packed that the lid will have a bulge of 1½ inches or thereabouts above the top line of the case;
- (4) Bananas shall be three-quarters full, free from bruising, twisted stems or any form of damage which, in the opinion of an inspector, may lead to deterioration during transit; no bananas shall have more than 10 per cent of the surface affected by scab moth or other damage; bananas must be normal in shape and shall not be less than 5½ inches in length (including the stalk when measured straight) or such lesser length as the Board may from time to time prescribe by notice in the Gazette; bananas must be in fresh, firm condition at all times; (*Amended by Regulations 29th December, 1960, and 23rd November, 1964.*)
- (5) No line of bananas shall be rejected for purchase and export by an Inspector unless at least 5 per cent of the total number of cases in such line have been examined and unless 20 per cent or more of the cases so examined have been found to contain 20 bananas or more which, in the opinion of an Inspector, do not conform to the standards prescribed.

*Brands*

9.—(1) The Board shall be empowered at all times to determine the colour, size, shape and nature of all brands which may appear on banana cases for export and licensed suppliers may not supply bananas for export in cases which are not branded according to the Board's instructions or to which other brands or marks not approved by the Board have been added.

(2) All such approved brands shall be published by the Board in the Gazette.

*Rules regarding methods of inspection*

10. The Board may make rules specifying the method of inspection to be carried out by an Inspector.

*Packing stations*

11.—(1) The Board may require all licensed suppliers to erect shelters of a construction satisfactory to the Board to protect cases and bananas from the weather and to ensure that cases and bananas are kept clean and free from mud, mould or contamination of any kind.

(2) The Board may require a licensed supplier to display prominently a notice bearing that supplier's name and registered mark upon a shelter erected or used by him.

*Registered marks*

12.—(1) The Board shall allot to each licensed supplier a registered mark which may consist of letters or numbers or both and shall determine the size, colour and manner of placement of such mark on all cases of bananas submitted by a licensed supplier.

(2) The Board may order a licensed supplier to use more than one registered mark or may allot a licensed supplier more than one mark where in the opinion of the Board such licensed supplier is able to supply at least 20 cases of bananas under each mark allotted for each shipment of bananas for export.

(3) The Board shall maintain a register of all registered marks and such register shall be available for inspection by any person at the office of the Board.

*Transport*

13. A licensed supplier shall be responsible at all times to ensure that bananas which he has picked or purchased, whether packed in cases or not, are handled with care in order to avoid bruising or other damage and to ensure that cases and such bananas are properly protected during transport from any damage or contamination from exposure to sun, rain, dust or other cause.

*Estimates*

14.—(1) Licensed suppliers shall be required from time to time as requested by the Produce Inspector to submit estimates of the quantity of bananas they expect to have available during any period.

(2) Not less than 14 days prior to the advertised date of departure of an export vessel, licensed suppliers shall provide the Produce Inspector with a final estimate of the quantity of bananas which they will have available for shipment in such vessel.

(3) The Produce Inspector shall then allocate shipping space to licensed suppliers so far as is practicable in proportion to such licensed suppliers' estimates or in accordance with any quotas which may have been applied under these regulations at least 10 days prior to the advertised date of sailing of an export vessel.

(4) Where any licensed supplier fails to supply his estimate, or his quota as the case may be, of bananas of the prescribed quality without reasonable cause (the proof whereof shall lie upon such supplier), the Board may—

(a) arbitrarily allot his quota or shipping allocation for any subsequent shipment;

(b) suspend or cancel such licensed supplier's licence.

*Allocation of quotas*

15. When at any time or during any period the Board is unable to obtain shipping space for all bananas available from licensed suppliers, the Board shall be empowered to allot quotas to such licensed suppliers as near as possible in proportion to the quantity of bananas, so far as the Board can determine this, which each licensed supplier has available for export:

Provided that with approval of the Minister the Board may allot quotas on an area basis.

*Delivery of bananas*

16.—(1) Licensed suppliers shall deliver bananas to the place and at the time directed by the Produce Inspector in cases of the prescribed standard.

(2) The Produce Inspector shall not be required to accept or inspect bananas which are presented to him in cases which are not of the prescribed standard and properly branded.

(3) Not later than the time of arrival of his bananas at a place determined by the Produce Inspector, a licensed supplier shall provide such Inspector with a statement in writing of the quantity of bananas presented for inspection in the form prescribed in the Third Schedule. The licensed supplier shall upon presenting such statement to such Inspector in duplicate require such Inspector to furnish a receipt for such statement if the quantity of bananas is to be purchased by the Board. If a licensed supplier fails to produce such a statement in duplicate as hereinbefore provided, the Produce Inspector's record of the quantity of bananas submitted for inspection may not be disputed.

(4) The Produce Inspector may order that cases shall be stacked to his satisfaction and may refuse to inspect cases until the entire line is assembled and stacked to his satisfaction.

(5) All bananas delivered to a place determined by the Produce Inspector and accepted by the Produce Inspector for inspection shall immediately upon delivery pass into the control of and, if purchased by the Board, the possession of such Inspector and shall be stacked, handled and moved only in accordance with directions given by such Inspector.

(6) A licensed supplier shall provide all labour necessary for stacking and handling his cases, and for repairing or repacking such cases as may be required by the Produce Inspector. In the event of a licensed supplier failing to provide such labour when required to do so by the Produce Inspector, such Inspector may engage labour for such purposes and the cost thereof shall be deducted from the price paid to such licensed supplier for his bananas.

(7) The Produce Inspector may direct that bananas rejected as unfit for export shall not be moved in any way until such Inspector is satisfied that such bananas will not be exported from Fiji upon an export vessel.

(8) The Produce Inspector may require any licensed supplier to remove from cases of bananas supplied by him any bananas which appear to such Inspector to be in an overripe condition, and may permit such licensed supplier to replace such bananas with other bananas of the prescribed quality or may reject such cases.

*Deduction of fees and expenses*

17. Prior to the payment by the Board of any sums due to a licensed supplier in respect of bananas purchased by the Board from such licensed supplier, the Board may deduct the following sums:—

- (a) an inspection fee of 2c a case;
- (b) an additional fee of 2c a case for every hour elapsing between the time specified by the Produce Inspector for the delivery of a licensed supplier's cases for inspection to such Inspector and the time when such cases are actually delivered;
- (c) an amount of 2c a case to offset the costs of general administration of the Board;
- (d) such other amounts as may be necessary to enable the Board to discharge its statutory obligations and to pay such taxes as the Board may be required to pay in respect of the export of bananas;
- (e) labour charges incurred under the provisions of paragraph (6) of regulation 16;
- (f) any debts due to the Board from a licensed supplier.

*Prescribed packing dates*

18.—(1) The Board may prescribe dates before which bananas for export on any particular export vessel shall not be picked.

(2) Such prescription of dates may be exercised in respect of any supplier or any area.

*Cancellation of licences*

19.—(1) If a licensed supplier fails to comply with the conditions of his licence, or if the statements contained in his application for a licence are exaggerated or untrue, or if he fails to observe the provisions of these Regulations, his licence may be—

- (a) suspended summarily by the Chairman of the Board for a period not exceeding one month;
- (b) cancelled by the Board, or suspended by the Board for a period not exceeding six months.

(2) The Board shall not be liable to refund licence fees or any part thereof which may have been paid in respect of a licence which has been cancelled or suspended as herein provided or which has been surrendered by a licensed supplier.

*Produce Inspector's report on shipment*

20.—(1) As soon as practicable after the completion of a shipment of bananas for export the Produce Inspector shall submit to the Chairman of the Board a

report specifying the names of all licensed suppliers whose bananas shall have been exported in that shipment, and shall specify in such report the number of cases allocated by him to each licensed supplier, the number of cases submitted for inspection for the purpose of exportation in that shipment by each licensed supplier, the number of each licensed supplier's case, which shall have been rejected, and the number of each licensed supplier's cases which shall have been accepted or approved for export by the Board in that shipment.

(2) The Chairman upon receipt of a Produce Inspector's prescribed report shall direct payment for bananas purchased by the Board into the Bank account of each licensed supplier specified in such report the amount due to such licensed supplier.
